# Restricted Substances Statement

RoHS 3  
(EU Directive 2015/863)

**Dulux**<sup>®</sup>

**POWDER  
COATINGS**

**Worth doing, worth Dulux.<sup>®</sup>**

## Worth doing. Worth Dulux.®

Dulux Powder Coatings have a comprehensive product stewardship programme to ensure that all products are monitored for chemicals of concern in line with leading international directives. This includes compliance to RoHS3 (EU2015/863).

## What is the RoHS3 (EU Directive 2015/863)?

The Restriction of Hazardous Substances 3 (EU 2015/863) is a European directive on the restriction of the hazardous substances. This list currently is detailed below together with the maximum concentration permitted of these substances:

Substance	Maximum Concentration
Cadmium	0.01%
Lead	0.1%
Mercury	0.1%
Hexavalent chromium	0.1%
Polybrominated biphenyls (PBB)	0.1%
Polybrominated diphenyl ethers (PBDE)	0.1%
Bis(2-ethylhexyl) phthalate (DEHP)	0.1%
Butyl benzyl phthalate (BBP)	0.1%
Dibutyl phthalate (DBP)	0.1%
Diisobutyl phthalate (DIBP)	0.1%

## Dulux Powder & Industrial Coatings Declaration

Dulux Powder & Industrial Coatings do not use or intentionally add the substances listed above nor use them as raw materials in the manufacturing of our powder coating products in Australia or New Zealand. Thus based on the information currently available, we believe that Dulux powder coating products meet EU Directive 2015/863.

**NOTE 1:** Dulux do not test for the presence of trace amounts of these substances that may be introduced into the product as a contaminant.

**NOTE 2:** These statements are for your information only and do not constitute a warranty or product specification.

## About Dulux

Dulux is a leading supplier of premium branded products that enhance, protect and maintain the places and spaces in which people live and work.

Dulux produces powder coating products for Australian and New Zealand markets from two factories, one in Victoria, Australia and one in Auckland New Zealand. We take raw materials such as polymers, pigments and extenders and manufacture them into packaged powder products. These are then distributed throughout Australia and New Zealand via a network of warehouses.

Dulux also produces powder coatings for coating in South East Asia and China under the branding of DGL International.

Our product stewardship and research and development programs enable us to develop coatings and other products that deliver a better place by improving the aesthetics, durability and lifespan of our consumer's assets while minimising sustainability impacts throughout the product lifecycle.

## What is Product Stewardship?

The principle of Product Stewardship is that those involved in producing, selling, using and disposing of products have a shared responsibility to make sure that those products or materials are managed to reduce their impact on the environment and on human health, wellbeing and safety.

As a manufacturer, purchaser and distributor of products to industrial, trade and household consumers, Dulux is committed to continually improving product related health safety and environmental impacts throughout its supply chain; from raw material sourcing to post-consumer product & packaging disposal. This is sometimes referred to as a "cradle to grave" approach as it covers the entire life cycle of the product.

## Advice line

Our dedicated consultants can help you by providing the right coating advice together with supplying specifications for your projects.

For Australia

Call 13 24 99 **or visit [duluxpowders.com.au](http://duluxpowders.com.au)**

For New Zealand

Call 0800 800 975 **or visit [duluxpowders.co.nz](http://duluxpowders.co.nz)**

## Advice line

Our dedicated consultants can help simplify the specification process, saving you time and money by providing the right coating advice for your project. They can provide:

- Documented project specific specifications
- Written confirmation of your project's eligibility for an Alumi Shield™ or Steel Shield™ warranty
- Design, coating system and colour advice

For Australia call 13 24 99 or visit [duluxpowders.com.au](http://duluxpowders.com.au)

For New Zealand call 0800 800 975 or visit [duluxpowders.co.nz](http://duluxpowders.co.nz)
